Rome, 2 July 2008

Upon the occasion of its 50th business anniversary and to celebrate this event, Poggi Trasmissioni Meccaniche Spa has chosen a tangible sign of solidarity in favour of children from all over the world.

Poggi Trasmissioni Meccaniche SpA will contribute to the “Schools for Africa” project, a UNICEF project in collaboration with the Nelson Mandela Foundation for the building or the renovation of 4000 schools in Africa, the supply of didactic materials, the implementation of training courses for teachers.

It is also thanks to initiatives like this one that UNICEF can continue its commitment in 156 countries around the world to help children to be born under the best possible conditions and grow up healthy.

A constant commitment that thanks to all of you UNICEF achieves both with long-term programmes and in situations of humanitarian emergency.

Herewith we would like to share this act of high value with all of you: customers, suppliers and collaborators of Poggi Trasmissioni Meccaniche SpA and all together wish a happy anniversary to the Company.

President of the Italian Committee for UNICEF
